SAN DIEGO

# Reo Drive Streetscape Improvements – Phase II

## Project Background

The Reo Drive Streetscape Phase II Improvement project consists of roadway improvements along Reo Drive between Albemarle Street and Cumberland Street which is consistent with the Skyline / Paradise Hills Community Plan. The project was divided into two phases. Phase I work, completed on November 2004, consisted of roadway slurry seal and striping; installation of enhanced crosswalks, streetlights, street trees, and curb ramp pop-outs at midblock & end intersections. Phase II work would finalize the project plan to widen the corridor and provide improved sidewalks for the community within this business corridor.

The aim of the project is to enhance a pedestrian friendly corridor. To that end, the project will widen Reo Drive 28 feet, incorporate Diagonal Street parking between Albemarle Street and Cumberland Street, include pedestrian pop outs at the two intersections and mid-block, installation of 8 new street trees, sidewalks, and the improvements to an existing storm drain system. The corridor will also receive an asphalt overlay and new pavement striping.

## Project Overview

The project consisted of Roadway Paving, Bus Stop Pads, Subsurface Drains, Concrete Hardscape (Sidewalk, Curb, Gutter, and Driveway), Street Lights, Water Services, Sewer Laterals, Traffic Signage, Traffic Striping, Pavement Markings, Embankment Construction, Trees, and Tree Grates.

## Construction Schedule

Construction Start: March 2009  
Construction Finish: November 2009

## Cost

Total estimated project cost: \$1.1 Million

- ▶ Airports
- ▶ Bikeways
- ▶ Bridges
- ▶ Drainage Control & Flood Control Facilities
- ▶ Libraries
- ▶ Park & Recreation Centers
- ▶ Police, Fire & Lifeguard Stations
- ▶ Street Improvements
- ▶ Street Lights & Traffic Signals
- ▶ Utilities Undergrounding
- ▶ Water & Sewer Facilities
- ▶ Water & Sewer Pipelines
